 **CHLOR*RID™** *SP8*

Stop Losing Days to Weather Delays

Tired of project delays that result in flash rust that require you to re-blast? There's a better way! Apply CHLOR*RID™ SP8, pressure wash, and you're ready to go. Save time and money while lowering your carbon footprint by reducing the use of rental equipment, costly cleanup, and additional labor.

Surface Preparation Products

Our top-rated CHLOR*RID™, Corr-Ze™, and HoldTight® surface preparation products ensure optimal coating adhesion, extending the lifespan of your assets and reducing the need for extensive maintenance.

Field Test Kits

Ask our AMPP-certified experts about our comprehensive range of CHLOR*RID™ field test kits for chlorides, sulfates, and nitrates for your next project. Visit chlor-rid.com to learn more about our full product range.
